

G6 Superhomes

IR REMOTE

USER MANUAL

Operating Instructions

Battery Installation & Replacement

- Remove the battery cover by rotating after pressing it using a coin.
- Install a CR2032 Lithium Battery (3V) in the battery compartment.
- Do not mix battery types. Use only fresh batteries.
- To confirm that battery is correctly installed,
 - Check the switch operation, or
 - Place your phone camera in the line-of-sight of the remote. Press any key on Remote. On the phone screen you'll observe a purple light (of IR).
- Insert the battery cover.

Operating the Loads with the Infrared Remote Control

- This Infrared Remote Control has a signal range of about **10 meters** and requires **line-of-sight**.
- To turn ON ALL the loads wired to the switches, press green key ("MASTER ON") and to turn OFF devices, press red key ("MASTER OFF").
- Keys 1 - 16 can be used to control individual switches.
- To regulate the fan speed use the "UP/DOWN" arrow keys.
- S1 - S4 are used to trigger scenes in boards with Xtend (Wifi Chip).
- ☀ and ☀ keys are used to turn ON and OFF the Backlight of the switch board respectively.
- 🔒 and 🔓 keys are used to turn ON and OFF the Child Lock respectively. When ON, it disables the physical touch and can only be controlled via remote or mobile app or through voice. Its functionality turns OFF after power cycle.
- If there is more than 1 board in similar line-of-sight, then the "SET", "RESET" buttons are used to configure and pair.
- Place your hand on the bottom board. Point remote towards top board and press "SET" key.
- Place your hand on the top board. Point remote towards top board and press "RESET" key.
- Now, you can use Keys 1-8, Up/Down arrow keys of F1, S1/S2 to control top board
- Bottom board can be controlled by using Keys 9-16, Up/Down arrow keys of F2, S3/S4
